Notes

- Ran by the /updateforge skill (first live run).
- Backup branch neo-backup-20260723 created (local only).
- Target is UNTAGGED - upstream has 36 commits past tag 2.27 with no new tag yet; detection was range-based (HEAD..upstream/neo).
- pip check conflicts (gradio/Pillow, litelama/kornia+omegaconf) are pre-existing Forge version overrides, not introduced by this merge.
